EXPERIENCE

UX / UI DEVELOPER AND DESIGNER, LIKEABLE LOCAL

11/2016 - Present

Portland, ME / Remote

- Designed new version of web app
- Worked on full stack of web app, though mainly focused on front end

UI DEVELOPER, LIKEABLE LOCAL

5/2015 - 11/2016

Portland, ME / Remote

- Lead developer for single page app that allows users to easily create and edit their own website
- Refactored nearly all front end code
- Responsible for the design of most new features
- Set up a front end build process using Webpack
- Worked with and contributed to Node server code regularly
- Transitioned from views full of scripts and onclick events to separate script files and React components
- Moved from an unweildy, one page stylesheet to a nicely modular set of SASS files

FRONT END WEB DEVELOPER, SUPREME GOLF

3/2014 - 4/2015

Remote

- Responsible for making the web application fully responsive as part of v2 rebuild
- Established a living styleguide
- Recoded site CSS from the ground up, using SMACSS and BEM principles
- Created a SPA microsite using React and Backbone, with data from the SG API
- Established and regularly contributed to a company Wiki
- Worked daily with RAILS templates and helpers

WEB DEVELOPER, TIMBERLAND

4/2011 - 3/2014

Stratham, NH

- Developed feature rich, responsive websites
- Collaborated with designers, project managers and clients
- Supported e-commerce sites on GSI and Demandware platforms

WEB DEVELOPER, FREELANCE

8/2008 - 3/2014

- Coded front and back end of projects
- Administered LAMP server
- Communicated with clients to establish project parameters
